The **“zero-gravity” position**, as found on the Alizé sunlounger, is **perfect for relaxing** and is widely recommended by medical professionals.

It is this position, with the legs positioned slightly above the heart, that the body adopts in a weightless state. The position was named by NASA in the 1970s. The sensation of gravity is reduced seven-fold, similar to when the body is floating in water.

The legs are raised and the thighs and trunk form an angle of 127 degrees, thereby :

- Significantly easing pressure on the lower back and spine.
- Reducing tension in the lower back muscles.
- Promoting improved blood flow in the legs and reducing strain on the heart.
- Freeing up the rib cage and allowing the lungs to expand, which improves oxygenation.

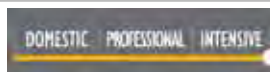

Zero gravity is reached by raising the feet (7°) and raising the backrest to the maximum (45°).

ACCESSORIES & PARASOLS

COLLECTIONS

Fermob applies its know-how, expertise and audacity to the **decoration of outdoor areas**. For more than a decade, the brand has been proposing **decorative accessories** to complement its main product lines: outdoor furniture.

Our accessories are the little details that you **fall in love** with (coat stands, hooks, trays, vases, single-stem vases, trivets and even cushions) to **accessorise outdoor areas**. They are designed for use outdoors but can also be used indoors to **decorate just about any room in your house**.

This season's new addition to the collection is a wall-mounted **mirror with trinket tray**.

THE IMPORTANCE OF DECORATIVE ACCESSORIES

Decorative accessories are essential elements of the **brand's aesthetic, atmosphere and identity**, playing a key role in a personalised customer experience. They bring added value to furniture by providing an additional **emotional dimension**.

Accessories such as different shaped cushions with varied patterns, comfortable seat cushions, original single-stem vases, colourful trays and trivets, bird feeders or even a fouta can bring a unique, personal touch to any space, creating a **warm, welcoming atmosphere**. They also make perfect gifts.

OUTDOOR TEXTILES

For its textile accessories and parasol, Fermob works with suppliers with proven **outdoor know-how** (Serge Ferrari, Margueroy, Tuva Textile, Vlaemynck, etc.) to guarantee impeccable, high quality products for all kinds of uses.

Cushions, foutas, garden ponchos and placemats are designed in collaboration with experts (stylists, designers, industrial specialists, etc.) selected for their quality standards. Our fabrics are made by French or European partners. Our **Jacquard and printed fabrics and Batyline® OTF** (Outdoor Technical Fabric) are made in France.

The fabrics used for our textile accessories and parasol:

- have **technical properties** to ensure lasting resistance to life outdoors without being damaged (UV colour resistance, water-repellent & stain protection treatments, mould resistance, etc.)
- **are easy to clean** (removable covers that can be machine washed at 30°)
- comply with **standards** and are tested for their robustness
 - Colour resistance to the sun and weather
 - Resistance to abrasion and friction
 - Tear resistance

The **metal accessories** are made in the same factories as our furniture. They are designed according to the same quality standards (steel, anti-UV powder paint).

Like all Fermob products, our accessories integrate the brand's basic standards: **creativity, design and colours**, to ensure **style, originality and practicality**.

LI200

MUCH MORE THAN A GARLAND...

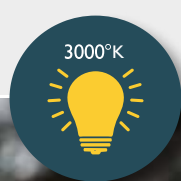

HOPIK LI200 is a fully fledged aerial lighting solution.

It consists of a 12-metre matt black cable, including a 6-metre hanging cable, plus 8 LED spotlights that are adjustable through 360° and 2 hook mechanisms, one at each end.

The dimmer switch, which is easy to access once installed, means it's equally suited to both a muted lounge area and a large, brightly lit table.

What's more, it's equipped with Bluetooth technology and can be controlled remotely with the Fermob Lighting app or the Ludo connected outdoor switch.

Surprising's leather is full-grain and really strong, and it will hold up remarkably well over time. This vegetable-tanned leather, a natural process that respects the environment, is dyed in the mass, giving it a clean reverse side and a tinted edge, a guarantee of superb quality. A Scotchgard finish gives it all its waterproof properties and protects the leather from stains and ageing.
